

# SCREW DRIVER ACCESSORIES

# FUNCTION, QUALITY AND AVAILABILITY

Momento has produced impact sockets since 1951 and with the long experience we know the importance of quality and functionality for our customers. For those who work with assembly, service and maintenance work, it is important to be able to rely on their tools and equipment to work and do their jobs when they are to be used.

We are now launching an expanded program of bits and accessories. Nor do we sacrifice quality here. Our bit program, like our other products, is of a high quality that meets the requirements of current standards.

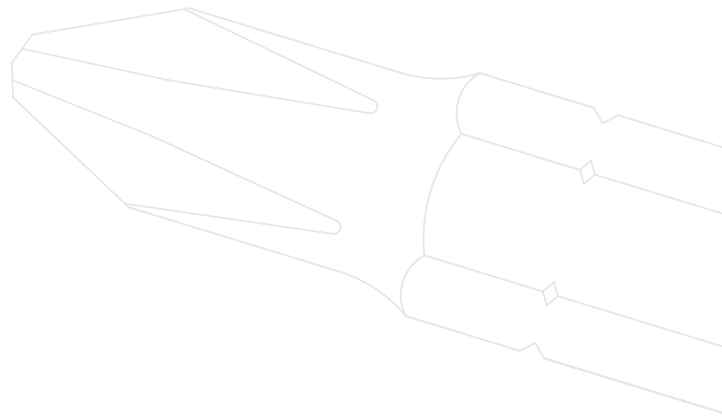

In this brochure, we hope that you will find what you are looking for when it comes to bits.

We also do a lot of specialty products, please contact us if you are looking for something outside our standard range.

Denna tabell visar bara ett urval av våra bitshylsor. I själva verket kan alla bits beställas sammanpressade med lämpligt fyrkantsfäste.

This table only shows a selection of square drive bits, in fact all insert bits can be ordered press fitted with suitable square drive head.

Diese Tabelle zeigt nur eine Auswahl unserer Bithalter. Es können alle Bits als 2-teiliger Kraft-Schraubendreher (gepresst) mit dem gewünschten Vierkantantrieb hergestellt werden.
